

SCOPE OF SERVICES

Services provided include on site testing (Kaiser Permanente Medical Center Anaheim, Irvine and Orange County MOB laboratories), Reference Laboratory testing, and Kaiser Regional Laboratory testing. On site testing is required for services needed in a timely manner for the treatment and diagnosis of patients with critical health status. Off-site testing requiring timely services are performed at local Reference Labs. Those services which can be performed more efficiently, effectively and/or economically by centralization are performed by Kaiser Regional Laboratories.

GENERAL INFORMATION

A. On Site Testing / Kaiser Permanente Medical Center Anaheim, Irvine Medical Center and MOB laboratories: See Laboratory Tests Performed at OC Laboratories P&P for tests performed.

B. Kaiser Regional Laboratory Testing

The following Regional Laboratories, owned by the Kaiser Foundation Health Plan and operated under the auspices and direction of the Southern California Permanente Medical Group, provide laboratory services solely on behalf of Kaiser Foundation Hospitals and the Southern California Permanente Medical Group:

Regional Reference Laboratories at Sherman Way
Regional Reference Laboratories at Chino Hills
Genetics/Metabolic Laboratory at Electronics Place
Regional Coagulation at Sherman Way
B&T Laboratory at Sunset
Cytology Laboratory at Sherman Way
Cytogenetics Laboratory at Sherman Way

Special tests unavailable in our laboratory system are referred to Independent Laboratories through the Regional Reference Laboratory at Sherman Way or Chino Hills facility. The Medical Director of Regional Laboratories recommends the laboratories for approval and the required information is available at both facilities.
