

CLINICAL ALERT

Send out Prostate Specific Antigen (PSA) for Males <50 years old

Effective October 2, 2023, Dearborn Laboratory will not be performing Prostate Specific Antigen (PSA) testing on male patients <50 years old.

What will happen:

1. Instrument Manager changes will suppress the order and the tube will route to the Input/Output module lane.
2. The tech will then deliver the tube to Specimen Processing (Decant person)
3. The person tasked to Decant will do the following:
 - a. Cancel the PSA using the Cancel code 158 - Unable to Perform Assay and enter in comments PSA <50
 - b. Order LAB6432 MISCELLANEOUS PROCEDURE, GENERIC (until a send out test code for Mayo is built) enter PSA <50 in the test question field

1 MISCELLANEOUS PROCEDURE, GENERIC [LAB6432]
