1. Purpose

Our dress code standards are intended to ensure an appropriate level of safety and professionalism for not only our team members but also for our members, patients, residents, their families, and our visitors. These expectations also consider and respect religious beliefs, pregnancy, childbirth or related medical condition, disabilities where accommodation is reasonable, and other workplace legal rights that employees have.

All team members adhere to the general appearance standards and will dress in accordance with their role and their interaction with patients, residents, members, their families, visitors, and the community while working. While we maintain these standards, our policy also allows flexibility for individuals to 'dress for your day' – consistent with the work you are performing. In addition to definitions of each dress code, there is additional [Dress for Your Day Guidance](#). Those who work virtually should maintain the same professional standards as if they were working in person and in alignment with the [Professional Expectations](#) policy.

In addition, there are division/department dress code appendices that define additional safety and/or regulatory dress code expectations for certain team members. If you have questions about which general dress code expectations apply to you, please ask your leader or Human Resources.

Note: because Corewell Health is a healthcare organization, we are subject to laws and have legal obligations that are not applicable to many other employers. This policy, and many others,

reflect that fact. However, Corewell Health respects every team member's legal rights. This policy is not intended to, and will not be applied in any manner to, restrict or interfere in any way with team members' rights to engage in any activity that is protected by law, including any activity that is protected by federal labor law. If you have any questions or concerns regarding your legal rights, please speak with your leader or a member of Human Resources. Information on your rights under federal labor law is available [here](#) (see § 157).
