

LAB Dept MEETING – Huddles

Date of Meeting: January 3, 2019

Attendees: Jocelyn Ybarra, Alan Dandridge, Juliet Garlejo, Raquel Lecaro, Maria Villafuerte, Alejandro Tolentino, Greg Johnson, Bill Craig, Michelle Trammell, Mark Gomez, Elliott Faure, Melanie Magee, Patricia Chea, Marissa Calilung, Marie Rutledge, Theda Bryant

Topic	Details	Action Item, responsible person, date due, or informational only
KUDOS SAFETY TIP	<ul style="list-style-type: none"> • Be alert on water back flow from drains. There was water on the floor in Chemistry department this morning. • To put EasyNet request for eyewash. Water is leaking when you push the lever down. 	Informational
2019 Vacation and Major Holiday Request	<ul style="list-style-type: none"> • Submit your request by 8 AM Feb 1, 2019. • Forms are in the folder by Theda's mailbox 	ALL STAFF
APTT Therapeutic	<ul style="list-style-type: none"> • Reminder, APTT therapeutic has not been validated for MVMC. • If ordered, please route and send to RMC 	ALL STAFF
Specimen pick up on floors	<ul style="list-style-type: none"> • We continue to have issues with RN's from floors insisting that we pick up their specimen. • There are still some phlebs who continue to pick up specimens and its causing confusion among nurses. • We need to be unified to fix this issue. 	ALL STAFF
Lactic acid parallel study	<ul style="list-style-type: none"> • This study is still ongoing. Reminder to draw 2 gray tops for lactic acid, one put on ice and centrifuge promptly and the other leave ambient and centrifuge in one hour. Put orange sticker on the ambient one to let CLS know which specimen is used for reporting result. We're still following the P&P/package insert for lactic acid which is to put specimen on ice and centrifuge before 45 mins and analyzed without delay. This is until further notice when this study is validated. 	ALL STAFF
Access 2 work flow	<ul style="list-style-type: none"> • Follow this workflow as emailed to you again on 12/28/18. Chemistry CLS needs to set up Instrument Activity Monitor as per instructions on email. 	CLS
Butterfly needle distribution	<ul style="list-style-type: none"> • Initial: 25 pcs 23G 5 pcs 21G • To replenish: ask Tricia or from your direct manager. 	Phlebotomist

Line Draws	Reminder with line draw workflow <ul style="list-style-type: none"> • Lab is responsible for draws including patients with a line unless Nurse volunteered to draw. • If patient or family member expressed resistance or have questions, get the nurse and have them explain to the patient. 	Phlebotomist
UBT		

This concludes the Minutes of the ___1/3/2019_____ Lab Staff Meeting.

Additional Quest Tests Migrating to Cerner RLN

Effective Date:	December 19, 2018
------------------------	-------------------

Announcement Effective 12/19/2018, the following changes will be implemented:

- Fifteen (15) additional Quest performed tests will be migrating over to Cerner Millennium Quest RLN.
- Activation of Hepatitis C Virus NS5A Genotype and test will be added to Cerner Millennium Quest RLN.
- BETA-2 TRANSFERRIN, CSF will move from Quest to ARUP Labs to improve turnaround time. The specimen source is defaulted to FLUID, and not CSF. Comment will display to alert providers during order entry.

The above changes will allow the appropriate result data to be electronically transmitted through the Cerner interface to KPHC directly and is consistent with our current laboratory processes. System interface changes are being done behind the scene. There are NO changes in the KPHC order entry workflow for the providers except Hepatitis C Virus NS5A Genotype is now orderable in KPHC versus manual requisition. There are NO changes in the transferring/tracking of outside reference laboratory specimens for the medical center laboratories. Follow existing SOPs.

Additional Quest Tests Migrating to Cerner RLN, *continued*

Hello Moreno Valley Colleagues,

To enhance the monthly reports on the Cancelled Low Volume Urine Cultures, we included the Enhanced Barcoding Chart in the Excel file attached which shows the area of collection and the personnel who placed the specimen "In Transit" (Last Line of Defense) to assist with your investigation. Please refer to screenshots below to view chart instantly.

Thank you,

Agnes Bautista | Asst. Director of Operations | Ancillary Services (spd/csc/outr) | SCPMG Regional Reference Laboratories – Chino Hills
