

Central Processing RL6s January 2022

1/5/2022	3 CBCs centrifuged
1/5/2022	Sendout test placed on a packing list to medical genetics
1/5/2022	Random urine processed and verified under 24h urine order
1/6/2022	CBC centrifuged
1/7/2022	Lost CBC sample between CP and hem
1/8/2022	Synovial fluid processed as urine
1/10/2022	2 Aspergillus Ag given to chemistry and opened. Had to be recollected.
1/10/2022	UDS went to UA bench and sample destroyed
1/11/2022	Ammonia sample not scanned in lab. Found after stability exceeded.
1/12/2022	Peds ED urine hold sample not poured off. UA reflexed a culture and no sample was left for testing.
1/15/2022	Test registered to wrong location
1/17/2022	CBC centrifuged
1/19/2022	Delayed CSF chemistry results; not scanned in lab, stored in chemistry
1/20/2022	Flow cytometry sample spun
1/20/2022	CBC centrifuged
1/20/2022	LDH sample lost between CP and Chemistry
1/24/2022	Wrong patient ordered in CareEvolve
1/25/2022	Peds ED urine hold sample not poured off. UA reflexed a culture and no sample was left for testing.
1/27/2022	Urine culture tube found in biohazard bag trash (sample within stability when found)
