1. The OR STAT Lab (Tube Station 12) is open from **6am-7pm Monday-Friday**.

a. Labels for OR STAT Lab tests have a “BG” in the accession number. See the following examples of Serum Pregnancy test and Intraoperative PTH for the OR STAT Lab:

2. If you receive a PREGSORLAB after 7pm on a weekday, or any time on Saturday or Sunday, you will need to re-order the test to be run in the main lab.

a. For a Serum Pregnancy test: order a PREGS test, LAB3007. Cancel the “BG” accession and refer to the new core lab accession. Spin the sample and deliver to the chemistry bench directly.

3. If you receive a PTH, INTRAOP on a weekday between 7-9pm, call the OR STAT lab first to see if someone is still working, 6-2181. If someone is working, send the sample to station 12. If no one is available, proceed to step “a” below. After 9pm or on weekends, proceed to step “a” below.

a. For a PTH, Intraop sample delivered after hours: order a PTH, Intraoperative LAB5935. Cancel the “BG” accession and refer to the new core lab accession. Spin the sample and deliver immediately to the chemistry bench.
