Central Processing RL6s June 2022

6/1/2022	Delay in ED samples getting to chemistry area
6/1/2022	DOB transcription error in CareEvolve
6/1/2022	Spun CBC
6/2/2022	Spun CBC
6/4/2022	Delay in Stat samples getting to chemistry
6/7/2022	Peds ED sample lost
6/9/2022	ED patient bad ID canceled; communication not documented in Beaker as to why labs were canceled
6/10/2022	Biliary fluid aliquoted with label for paracentesis fluid
6/12/2022	Spun CBC
6/13/2022	Spun CBC
6/13/2022	Lost serum osmo
6/17/2022	Intact PTH not scanned, not found until past stability
6/22/2022	Delayed Peds ED testing
6/23/2022	Spun CBC
6/24/2022	UA and hold not processed; original orders canceled but new orders available in order inquiry. Found in hold bin when provider inquired 3 days later. At that time sample was out of stability.
6/29/2022	CBC found in tube room floor 10 hours after collection
6/29/2022	BNP not scanned in lab; found after stability
6/29/2022	BNP not scanned in lab; found after stability

Central Processing RL6s July 2022

7/1/2022	ED samples not scanned in lab. Delayed testing/results.
7/2/2022	Wesley Long sample registered wrong and incorrect provider used
7/3/2022	TEG spun
7/6/2022	ED samples not scanned in lab. Delayed testing/results.
7/6/2022	Stat IR CBC and PT logged at window at 1120, not scanned in to lab until 1332. Delayed testing/results.
7/7/2022	TEG spun
7/7/2022	random urine processed with a 24-hour urine order
7/8/2022	Two tests missed/not entered from manual requisition. When error found, samples past stability for testing.
7/9/2022	Fresh OR Path sample in spin fridge from 7/4 to 7/9
7/12/2022	EDP sample destroyed in centrifuge; label not readable to identify impacted patient. When patient identified, the nurse was not notified of the need for recollection. Redraw required, delayed results, and lack of communication.
7/12/2022	ED sample destroyed in centrifuge; label not readable to identify impacted patient until ED called looking for result. Redraw required and delayed results.
7/12/2022	urine creatinine came in UA tube - ran on Iris, unable to use for chemistry
7/13/2022	Spun CBC

7/13/2022	Spun ESR
7/13/2022	CBC fell in tube station, sat from 7/7 to 7/13
7/13/2022	Intact PTH not scanned in lab, found past stability
7/17/2022	EDP sample not scanned in lab. Delayed testing and results.
7/18/2022	Spun CBC
7/19/2022	Lost pedi Tbili sample between CP and chemistry
7/19/2022	Spun CBC
7/19/2022	Spun CBC
7/19/2022	Spun CBC
7/22/2022	Add on email from external email address did not send to client services email list. Add on was not performed until provider called the next day and results were not called as requested on form.
7/23/2022	Blood samples from PPI missing between PPI and CP
7/26/2022	Spun citrated platelet count (plt on blue top)
7/27/2022	UA lost between Spin and Heme - empty tube found in Spin trash
7/27/2022	Serum drug screen (sendout) sent to HLA lab, out of stability when sent back to WC Lab
7/28/2022	Spun CBC
7/28/2022	RPR not scanned in lab. Delay in testing.
7/30/2022	Troponin I sample not received in lab. Delayed testing.
