OTHER USEFUL INFORMATION:

Effective November 20, 2017, Sunquest and Epic order codes for Fecal Leukocytes (Stool for WBC'S) testing will change. There are no test procedure, methodology or specimen collection changes.

The Fecal Leukocytes (Stool for WBC'S) Sunquest order code is now **FECLAC**, previously STWBC.

The Fecal Leukocytes (Stool for WBC'S) Epic order code is now **LAB731**, previously LAB265.

The following comment will be appended to all Fecal Leukocytes (Stool for WBC'S) test results:

False positive results can occur in infants that are being breastfed due to the increased amount of lactoferrin normally in breast milk.
