

Informational only

We have added this pop up to F8 and F9 requests

so it is clear to clinicians what to do out of hours.

If you get a request out of hours and it's not pre-arranged – freeze it.

If someone calls for a result – refer to Haematologist on-call for approval.

The screenshot displays a Cerner software interface. On the left, a table titled "Orders for Accession 19-336-1712" lists several orders. The table has three columns: "Collect Date", "Accession", and "Order". The first row is highlighted in blue.

Collect Date	Accession	Order
04-12-2019 09:00	19-336-1712	VITD25
04-12-2019 09:00	19-336-1712	TSH
04-12-2019 09:00	19-336-1712	SYPHE
04-12-2019 09:00	19-336-1712	DIFF
04-12-2019 09:00	19-336-1712	APTTC
04-12-2019 09:00	19-336-1712	AXA LA
04-12-2019 09:00	19-336-1712	CLIX

Below the table is a menu bar with "Task", "Edit", "View", "Order", "Customize", and "Help". A toolbar with various icons is visible below the menu bar. At the bottom left, there is a "Client:" dropdown menu with "The Alfred" selected.

Overlaid on the right side of the interface is a pop-up window with the Cerner logo at the top left. The main text in the pop-up reads: "When requesting this factor level out of hours (0900 - 1730 Monday to Friday) contact the laboratory scientists via ext 62468 to arrange testing in advance". At the bottom center of the pop-up is an "OK" button.
