

SCC-LIS_TIP OF THE WEEK

MODULE: ALL	SOFTWARE VERSION: 4.0.4/4.0.8
TOPIC: Upgrade to 4.0.8	ISSUE DATE: 23February2017
DISTRIBUTION: End Users_ALL	PAGE: 1 of 1
ISSUED BY: M-L Dufresne, Territorial LIS Administrator	

TOPIC/QUESTION:

What's "LIVE2"?

ANSWER/TIP:

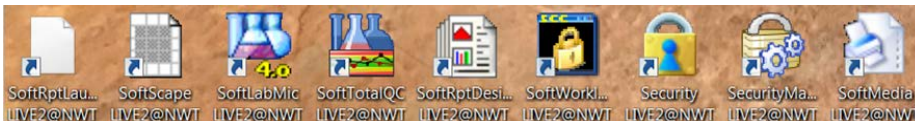

The NWT SCC LIS system is doing a Software Upgrade on **29March2017**

FROM: SoftLab/Mic version 4.0.4
TO: SoftLab/Mic version 4.0.8

"LIVE2" is the 4.0.8 version currently undergoing validation.

You may see "LIVE2" icons on your desktop or when logging into LIS through citrix.gnwt.ca

Do not use these icons until we go-live unless otherwise instructed.

OTHER CONSIDERATIONS:

All Tips of the Week Issued Since August 2016 have been applicable to both LIVE and LIVE2 versions.

After March, do not refer back to any "Tips Of the Week" that were issued strictly for 4.0.4 version as they will no longer be applicable.
