

NWT LIS TIP OF THE WEEK

Module: SoftLabBank	Software Version: 4.0.8
Topic: Access Micro and BB Backup	Issued On: 01MAR2019
Distribution: All Users	Page: 1 of 1
Issued By: M-L Dufresne, Territorial LIS Administrator	

TOPIC/QUESTION:

What are the Micro and Blood Bank Backups? How do I get to them?

ANSWER/TIP:

The backups are files that are copied daily to each hospital's local directory in case of need during a prolonged period of LIS downtime.

The microbiology backup is a copy of recently logged specimen observations that can be printed and used as a paper-based plate log.

The blood bank backup is a document of patient data that lists patients alphabetically and indicates ABORH status/Antibodies/Previous Transfusions etc.

To Access your site's copy of these backups:

SITE	LOCATION OF BACKUP
FLAB	Blood Bank Computer (SM42-HC0188) C:\BloodBank
HLAB	<u>\\storealusershares\SCCBackupV4.08</u>
ILAB	L drive mapped to <u>\\data\group\$\LAB</u> <i>Look for folder called BloodBankBackupNew</i>
SLAB	S:\LAB\SCCBackup

EXAMPLE:
