

PURPOSE: To provide instructions on how to open and close lot numbers and change Active and Not Active status in TQC.

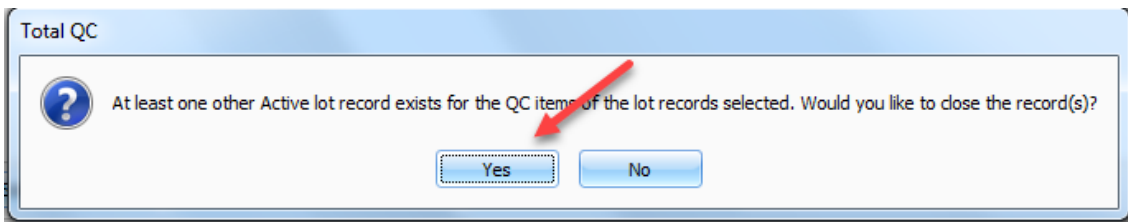

PROCEDURE INSTRUCTIONS:

Step	Action
1	<p>From the “Launch Bar”, select “Open Lot” in the “Inventory” tab:</p> 
2	<p>In the “Search” window, in the drop down menu, select “Lot Number” and enter the lot number for the required record. Select “Find”</p> 
3	<p>The lot number will be displayed in the table:</p> 

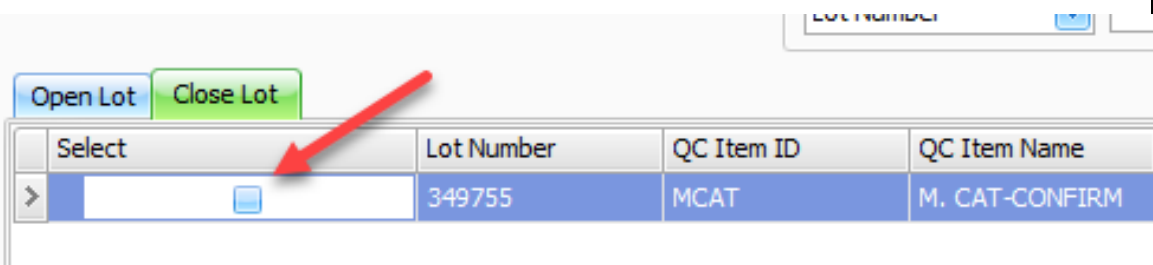

4 Select **“Open Selected Lots”** to open and activate the lot number:

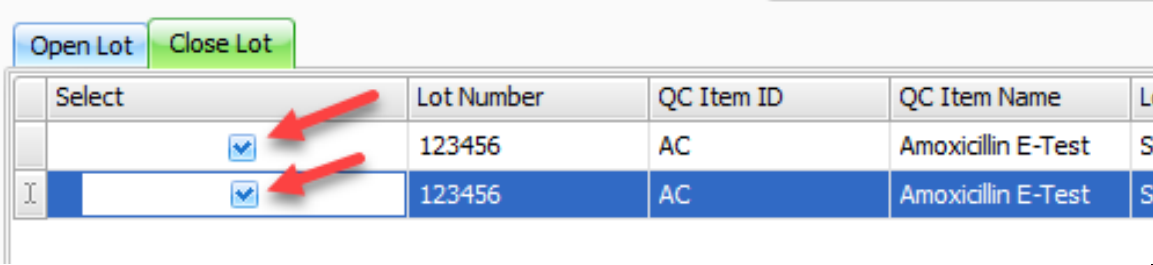

5 Once the new lot number has been opened, the previous active lot number must be closed. This option will pop up when the lot number is opened:

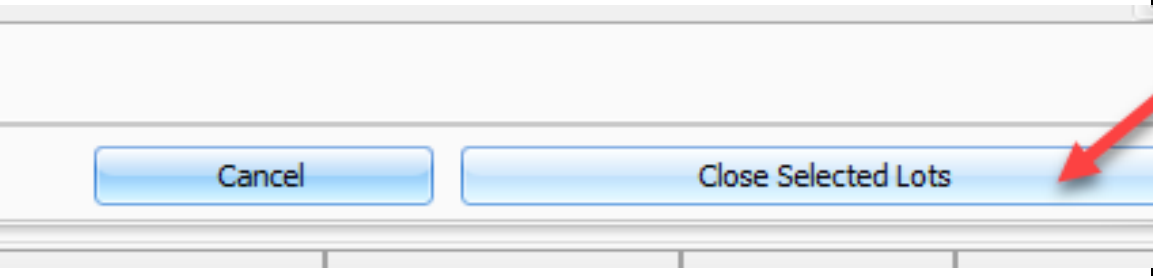

6 Select **“Yes”** and the previous active lot number will be displayed. Select the lot number:

6 If there were two shipments of the same lot number entered into TQC, both lot numbers need to be closed. When you select **“Yes”** both lot numbers will be displayed. Select both:

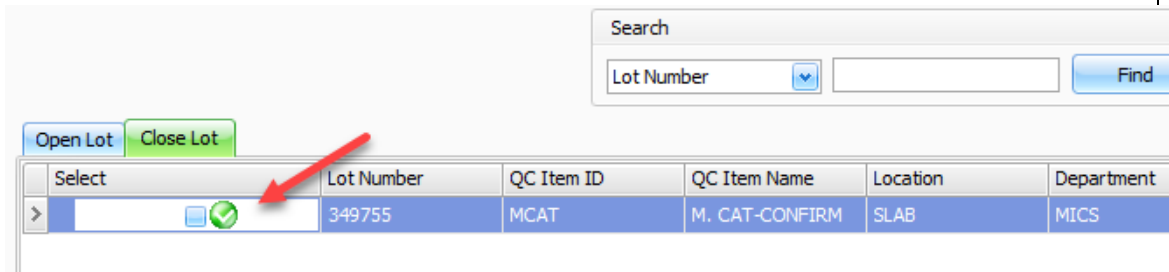

7 After selecting the lot number, select **“Close Selected Lots”** in the bottom right side:

NOTE: This is a controlled document for internal use only. Any documents appearing in paper form are not controlled and should be checked against electronic version prior to use.

8

The lot number will be closed and a green check mark will appear beside the lot number:

If there were two entries of the same lot number that were closed, a green check mark will appear beside both entries:
