

NWT LIS TIP OF THE WEEK

Module: SoftLabMic

Software Version: 4.0.8

Topic: CC'ing Clinics/Doctors

Issued On: 18FEB2022

Distribution: All End Users

Page: 1 of 1

Issued By: Kaylan Symes, Territorial LIS Administrator

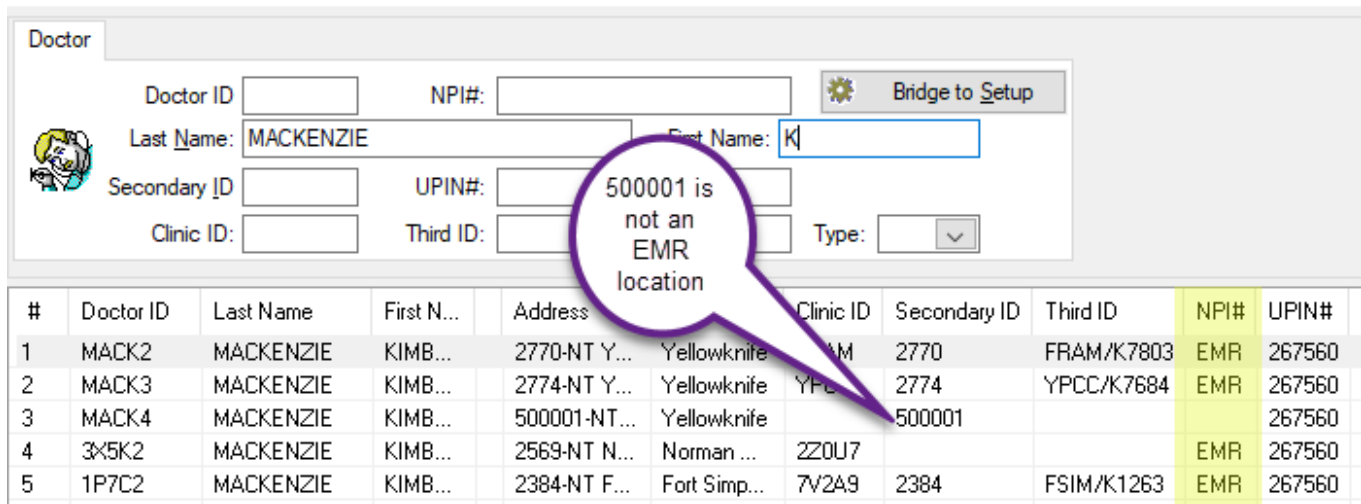

TOPIC/QUESTION: How to process copy to (CC) results.

ANSWER/TIP: Any copy request to outside NWT does not get processed. The requesting CC'd health care practitioner (HCP)/clinic will need to request directly from the ordering HCP. Also, for a request to copy an HCP within the NWT, if both ordering and copy to HCP receive results via EMR, the report will only go to the first EMR HCP. The second HCP will not get the report and will need to request it from the ordering HCP. EMR does not send multiple copies of reports.

EXAMPLE: How to tell if a health care practitioner receives results via EMR.

Perform a lookup by placing cursor in doctor ID field and pressing F2. Type in last and/or first name of practitioner and press enter.
