Weekly Huddle Re: Social Media

This informal meeting was to all remind staff of our Code of Conduct and Oath of Secrecy when it comes to posting on all Social Media outlets. Per NTHSSA policies, staff members are not to post any interior pictures of the STH hospital, including pictures that contain staff, clients and patients. Staff should also not engage or post any negative remarks about STH on social media sites.

It was also mentioned that it is acceptable when pictures are taken within the hospital and posted on the NTHSSA social media sites, as people would have signed consent for the pictures to be published.

If you have any questions in regard to this policy please feel free to come and ask.
