

PROGRAM Standard Operating Procedure – Laboratory Services	
Title: MIC10400 – Accessioning CMPT Surveys	Policy Number: 15-145-V1
Program Name: Laboratory Services	
Applicable Domain: Lab, DI and Pharmacy Services	
Additional Domain(s): NA	
Effective Date: 14/03/2024	Next Review Date: 14/03/2026
Issuing Authority: Director, Laboratory and Diagnostic Imaging Services	Date Approved: 14/03/2024
Accreditation Canada Applicable Standard: NA	

Uncontrolled When Printed

GUIDING PRINCIPLE:

CMPT surveys provide external assessment challenges (EQA) for clinical microbiology laboratories. The program covers a wide variety of samples normally received by laboratories for staining, bacteriology culture and identification.

The Stanton Territorial Hospital Microbiology Laboratory participates in the following CMPT external assessment challenges:

1. Clinical Bacteriology program
2. *C.difficile* program
3. AFB (Acid-Fast bacilli) stain program
4. Screens/Molecular program
5. COVID-19 program
6. *Trichomonas vaginalis* detection program

PURPOSE/RATIONALE:

This standard operating procedure describes how to accession CMPT surveys in a standardized way so that results do not affect epidemiology statistics and so that patient specific system rules are applied correctly.

SCOPE/APPLICABILITY:

This standard operating procedure applies to Medical Laboratory Technologists (MLTs) processing competency survey specimens.

SAMPLE INFORMATION:

- Testing material consists of lyophilized cultures, slides and “simulated” patient specimens.
- Refer to the directions accompanying each survey for specimen handling.

Disclaimer Message: This is a **CONTROLLED** document for internal use only. Any documents appearing in paper form are not controlled and should be checked against the electronic file version prior to use.

SPECIAL SAFETY PRECAUTIONS:

Containment Level 2 facilities, equipment, and operational practices for work involving infectious or potentially infectious materials or cultures:

- Ensure that appropriate hand hygiene practices be used
- Lab gown must be worn when performing activities with potential pathogens
- Gloves must be worn when direct skin contact with infected materials is unavoidable
- Eye protection must be used when there is a known or potential risk of exposure of splashes
- All procedures that may produce aerosols, or involve high concentrations or large volumes should be conducted in a biological safety cabinet (BSC)
- The use of needles, syringes and other sharp objects should be strictly limited

All patient specimens are assumed to be potentially infectious. Routine Practices must be followed. Since viable micro-organisms are used, all cultures must be handled with appropriate precautions. All equipment in contact with cultures should be decontaminated by appropriate methods.

PROCEDURE INSTRUCTIONS:

Step	Action
Ordering CMPT samples in SoftMic	
1	In Order Entry, select "New" to create a new patient
2	<p>Fill out the following information in the general tab:</p>  <p>LAST NAME: CMPT</p> <p>FIRST NAME: CMPT Specimen No.</p> <p>AGE: As specified on CMPT Case History Sheet</p> <p>SEX: As specified on CMPT Case History Sheet</p> <p>ATTENDING DR.: DUMD</p> <p>WARD: CMPT</p> <p>NOTE: The ward must be CMPT in order to exclude data from epidemiology reports</p> <p>DEPOT: S1</p>

Disclaimer Message: This is a **CONTROLLED** document for internal use only. Any documents appearing in paper form are not controlled and should be checked against the electronic file version prior to use.

3	<p>Fill out the following information in the micro tab:</p>
	ORDER: Order the test specified on the CMPT Case History Sheet
	SOURCE: Choose the appropriate source as per the CMPT Case History Sheet
	SITE: Free text the site information provided on the CMPT Case History Sheet
	COLLECTED/RECEIVED/PLATED: Add yourself
	ANTIBIOTIC THERAPY: Fill out as per the CMPT Case History Sheet
	MICRO OE COMMENTS: Record the clinical history provided on the CMPT Case History Sheet
	STUDY: Select the study CMPT NOTE: Without this step, the specimen will not qualify to the review worklist
4	Place the requisition barcodes for all specimens accessioned on a separate piece of paper and attach to the paperwork that accompanied the survey. Place all papers on the Dark Room bench.

Disclaimer Message: This is a **CONTROLLED** document for internal use only. Any documents appearing in paper form are not controlled and should be checked against the electronic file version prior to use.

APPROVAL:
