TRAINING UPDATE

Lab Location:

SGAH and WAH

Date Implemented:

12.17.2013 12.31.2013

Department: Blood Bank

Due Date:

DESCRIPTION OF PROCEDURE REVISION

Name of procedure:

Immucor Manual Capture Equipment Maintenance Record

Description of change(s):

Added lines at the bottom of the form to document in use lots of PBS and DIH₂O.

- While updating the supply receipt log, I noted that SGAH and WAH were tracking new lots of saline differently. Saline is difficult to track, because we don't necessarily unpack it ourselves.
- To make the process easier, we will document saline in use on the equipment logs (Echo PBS log, cell washer log, and now manual capture log).

	Month/Year:
Washington Adventist Hospital, Takoma Park, Maryland	Shady Grove Adventist Hospital, Rockville, Maryland
