#### TRAINING UPDATE

Lab Location: Department:

GEC, SGAH & WAH All Staff Date Distributed:
Due Date:

3/24/2014 4/30/2014

#### **DESCRIPTION OF REVISION**

#### **Documents for Review:**

- Safety Review List AG.F276
- Evacuation Routes for GEC, SGAH & WAH
- SDS (Safety Data Sheet) 800 phone number Poster & Labels
- Spray Bottles and Labels for disinfectant

#### **Description of change(s):**

- Site-specific **Safety Review** forms are combined into **one** form. This will ensure employees who rotate and work at other sites are informed of differences.
- Revised SGAH **evacuation route** due to renovation of the lab. Evacuation routes for GEC & WAH have NOT changed. All are provided to ensure rotating staff are aware.
- Posters and labels with **800** # **for SDS** this phone number is for the QUEST chemical inventory site.
- **Clorox Cleaner** (used to be called Dispatch) that comes in large jugs will be poured into plain spray bottles and be labeled by lab staff.
  - o Copy the lot # and expiration date from the jug, and write date filled & your tech code / initials on label.
  - o Make a new label each time you re-fill a spray bottle. This will assure the correct lot & exp date are on them

Document your compliance with this training update by taking the quiz in the MTS system.

#### Instructions

Review the following safety related information with the employee during his/her initial hire and/or annual review. Add any departmental specific items at the end of the form. Sign with the employee at the bottom and keep completed form in the employee's training file.

|   | Location of the Department's Safety Manual, including the Chemical Hygiene Plan and the Exposure       |
|---|--|
|   | Control Plan   |
|   | Reads and reviews the Department's Safety Manual   |
|   | Location of the Safety Data Sheets (SDS), including understanding the requirement that the SDS must be |
|   | read before the person works with the chemical.  |
|   | Location of the Bulletin Board for safety items; Emergency telephone numbers posted:                   |
|   | 1. SDS 1-800-704-9215  |
|   | 2. Hospital Safety Officer: ext. 6201 at SGAH; ext. 5551 at WAH  |
|   | 3. Emergency Code Alert Information ext. 4164  |
|   | Location of the nearest eyewashes and safety showers, including instructions for use.                  |
|   | Location of the nearest fire alarms switches, and how to use them (i.e. pull them down).               |
|   | When a fire occurs: <b>R</b> Rescue anyone in immediate danger   |
|   | A Pull the Alarm, call 4444  |
|   | C Confine – Close all doors  |
|   | E Extinguish (use good judgment when deciding to fight a fire)   |
|   | Location of the nearest fire extinguisher; Steps to use extinguisher:                                  |
|   | P Pull the pin   |
|   | A Aim the extinguisher   |
|   | S Squeeze the handle   |
|   | S Sweep  |
|   | Two (2) nearest exit routes from the department to the outside of the building                         |
|   | Perform a fire drill with trainee. Describe evacuation process at the other sites                      |
|   | Location the department is to meet outside of the building during building evacuations.                |
|   | Location of the nearest first aid kit  |
|   | Location of the nearest chemical spill materials, and review instructions                              |
|   | Response to Mercury spill – contact Hospital Safety Officer.   |
|   | Location of personal protective equipment (PPE) in the department, how to obtain PPE and when to use:  |
|   | 1. Gloves  |
|   | 2. Body Protection (Lab coat)  |
|   | 3. Face/Eye protection   |
|   | Process to clean counters and benchtops before, during and after each shift                            |
|   | Description of types of waste streams (all lab locations):   |
|   | 1. Sharps: Sharps to be placed into approved sharps containers, not to be overfilled, closed and       |
|   | placed in medical waste for disposal.  |
|   | 2. <u>Chemical</u> : Review department's chemical waste disposal procedures.                           |
|   | 3. <u>Confidential and white paper recycling</u> (only for non-contaminated paper)                     |
|   | SGAH Specific Descriptions:  |
| _ | 1. Medical (infectious) waste: red bags. Anything containing or contaminated with biological           |
|   | material (gloves, old specimens, etc.).  |
|   | 2. Regular trash: NO GLOVES.   |
