

# Professional Work Attire

New Vision Medical Laboratory  
SRMC SITES ONLY

**We have heard your request on reconsidering the use of our impermeable lab coats for performing phlebotomy.**

**We are pleased to announce that we have changed the policy. Please refer to policy nvml.hr.5.02 to read about your site specific changes.**

**However we want to address professional work attire before the policy is in full effect.**

Scrubs must be professional in attire. Tops must be appropriate styles to keep employee professionally covered at all times. Undergarments can be worn under scrub tops if the employee deems necessary. Scrub pants must be appropriate length and should not drag on the floor.

The wearing of revealing attire, novelty sweatshirts and t-shirts, and jean pants (blue or black denim), shorts, spandex clothing, leggings/tights, and similar items are not permitted. Spaghetti straps, tank tops, halter tops or exposed midriffs are not permitted.

Name badges must be free of all debris, pictures, stickers, etc. Only your badge with SRMC/NVML approved response cards will be permitted.

*Thank you all for your suggestions and help!*

*If you have any questions please speak to your immediate supervisor.*

**Policy change will go into effect on 3/23/2015.**
