Resulting the Pathologist Review Order, HC.POST02.04-/-RV.xx

Purpose

This procedure describes how to result pathology review orders

Policy

- The Dayshift and PM shift CLS assigned to hematology will be designated to result Path review orders

PROCEDURE

Follow the steps below to result path review orders

Step	Action
1	Log into Sunquest ALAB
2	At the Function prompt, enter MEM
3	At the Worksheet prompt, enter RVPATH
4	At the Accession number prompt, enter the patient's ACC number
5	At the PRHS result field, review to ensure the correct specimen source is reported <ul style="list-style-type: none"> Modify the source only when entering path review comments for body fluid orders with the appropriate body fluid source
6	At the PRH result field, enter the pathology review comments using ETC, free text or combination <ul style="list-style-type: none"> Refer to the Appendix B: Pathologist Review Group ETC Interpretive comments for translation of ETC's When using an ETC, type the ETC code. Use a hyphen to attach multiple ETC's together When using free test, a semi colon is used before the free text comment When using a combination of ETC and free text, a semicolon and hyphen is used For peripheral blood smears, when Pathologist documents that the smear was reviewed by using initials with no additional comments then use ETC SREV to indicate smear reviewed by Pathologist
7	Append the reviewing Pathologist's code by referring to the Pathologist code document

	<ul style="list-style-type: none">• A hyphen is used to attach the Pathologist code
8	Press Accept when complete
9	File the slides in the Path review slide box
10	File the patient report and the path review worksheet together by collection date in the Path review patient report file cabinet
