Managing Covid Convalescent Plasma Orders

Managing COVID-19 Convalescent Plasma Orders

Purpose	Provide instruction for the management of COVID-19 Convalescent Plasma (CCP) orders once the Transfusion Service is notified by a provider of a patient need.												
Policy	<ul style="list-style-type: none"> Plasma will be tagged by the blood supplier as investigational. Units will only be used for COVID-19 patients who have been assigned an IND (Investigational New Drug) number after having been enrolled in an EAP by a licensed provider. Transfusion Services will be responsible for distributing the COVID-19 Convalescent Plasma Order form. Plasma should not be ordered and/or thawed until completed form Convalescent Plasma Order form and evidence of signed MAYO Clinic Consent form is received by the Transfusion Services Dept. Each IND number covers the patient for up to 2 transfusions of CCP. Each CCP unit is approximately 200 mL. COVID-19 Convalescent Plasma will only be ordered for patients over 18 years old with severe or life-threatening COVID-19 disease. In the event a physician would like to transfuse a pediatric patient, they will need to work directly with the Mayo Clinic EAP team. Approval for the use of ABO incompatible convalescent plasma, as needed, has been granted by the Laboratory Medical Director with the approval of the ordering physician. Document physician approval for incompatible product use as a chartable comment in the Laboratory Information System. 												
EPIC Ordering	<p>The ordering provider will place an order in EPIC for "COVID Convalescent Plasma" and notify Transfusion Services.</p> <ul style="list-style-type: none"> Individual plasma order with comment that convalescent plasma is needed may be received as a substitute order. 												
Plasma Order Form	<p>Once verbal or EPIC order is received perform the following:</p> <table border="1"> <thead> <tr> <th>Step</th> <th>Action</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Label a copy of the COVID-19 Convalescent Plasma Order Form with an EPIC label and complete the top portion of the form.</td> </tr> <tr> <td>2</td> <td>Provide the Ordering Provider, or an assigned representative with the COVID-19 Convalescent Plasma Order Form from step 1.</td> </tr> <tr> <td>3</td> <td>Inform the Provider or care team member that the completed Order form and evidence of signed MAYO Convalescent plasma consent form must be received by the Transfusion Services before product will be ordered from the supplier.</td> </tr> </tbody> </table> <p>NOTE: DO NOT place an order with supplier for convalescent plasma until the Order form is returned with a Mayo patient ID number documented on it.</p>	Step	Action	1	Label a copy of the COVID-19 Convalescent Plasma Order Form with an EPIC label and complete the top portion of the form.	2	Provide the Ordering Provider, or an assigned representative with the COVID-19 Convalescent Plasma Order Form from step 1.	3	Inform the Provider or care team member that the completed Order form and evidence of signed MAYO Convalescent plasma consent form must be received by the Transfusion Services before product will be ordered from the supplier.				
Step	Action												
1	Label a copy of the COVID-19 Convalescent Plasma Order Form with an EPIC label and complete the top portion of the form.												
2	Provide the Ordering Provider, or an assigned representative with the COVID-19 Convalescent Plasma Order Form from step 1.												
3	Inform the Provider or care team member that the completed Order form and evidence of signed MAYO Convalescent plasma consent form must be received by the Transfusion Services before product will be ordered from the supplier.												
Processing an Order for the Plasma Product	<p>Follow steps below to process a Convalescent Plasma order.</p> <table border="1"> <thead> <tr> <th>Step</th> <th>Action</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Verify patient has an ABO type on record. If not, type patient immediately.</td> </tr> <tr> <td>2</td> <td> <table border="1"> <tr> <td>Determine the product availability .</td> <td>Then....</td> </tr> <tr> <td>If there is.....</td> <td></td> </tr> <tr> <td>Type compatible unit in storage at affiliate</td> <td>Proceed to affiliate appropriate SOP for thawing the product</td> </tr> </table> </td> </tr> </tbody> </table>	Step	Action	1	Verify patient has an ABO type on record. If not, type patient immediately.	2	<table border="1"> <tr> <td>Determine the product availability .</td> <td>Then....</td> </tr> <tr> <td>If there is.....</td> <td></td> </tr> <tr> <td>Type compatible unit in storage at affiliate</td> <td>Proceed to affiliate appropriate SOP for thawing the product</td> </tr> </table>	Determine the product availability .	Then....	If there is.....		Type compatible unit in storage at affiliate	Proceed to affiliate appropriate SOP for thawing the product
Step	Action												
1	Verify patient has an ABO type on record. If not, type patient immediately.												
2	<table border="1"> <tr> <td>Determine the product availability .</td> <td>Then....</td> </tr> <tr> <td>If there is.....</td> <td></td> </tr> <tr> <td>Type compatible unit in storage at affiliate</td> <td>Proceed to affiliate appropriate SOP for thawing the product</td> </tr> </table>	Determine the product availability .	Then....	If there is.....		Type compatible unit in storage at affiliate	Proceed to affiliate appropriate SOP for thawing the product						
Determine the product availability .	Then....												
If there is.....													
Type compatible unit in storage at affiliate	Proceed to affiliate appropriate SOP for thawing the product												

<p>No type compatible unit in storage at the affiliate.</p>	<p>Place an order for the convalescent plasma in the Vitalant on line customer portal.</p> <ul style="list-style-type: none"> • Select "COVID-19 Convalescent Plasma" from the modifiers list associated with plasma. • Indicate in the comments section that it is for immediate patient need • TAT on order can be 1-3 days, if no stock available, especially if type compatible product is needed. 																
<p>No product is available from Vitalant within time frame needed for patient</p>	<p>Contact ARC to request COVID Convalescent plasma</p> <ul style="list-style-type: none"> • Call 1-800-564-1947, @ @ @ @ • Provide information requested to place verbal order for product • Information will be relayed to CCP order fulfillment team • No billing information is needed 																
<p>Receiving a Convalescent Plasma</p>	<p>Enter plasma into SQ inventory system once Convalescent Plasma is received at the affiliate.</p> <ul style="list-style-type: none"> • Unit will arrive with a tie tag designating it as a "Convalescent Plasma". • The product code will designate it as a "Convalescent Plasma". • All bags collected for a designated affiliate will be sent to directly from the blood supplier to that affiliate. • Whenever possible, frozen convalescent plasma should be segregated from other FFP inventory. 																
<p>Preparing Product Order</p>	<p>Follow the steps below to prepare the product.</p> <table border="1" data-bbox="358 968 1333 1486"> <thead> <tr> <th>Step</th> <th>Action</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Ensure you have a EPIC Convalescent order for the patient, along with completed COVID-19 Convalescent Plasma Order form and evidence of signed MAYO consent form.</td> </tr> <tr> <td>2</td> <td>Thaw plasma according to affiliate specific SOP.</td> </tr> <tr> <td>3</td> <td>Perform component preparation using the processing codes listed in the "Component Prep Code and Labeling Table" section below. <ul style="list-style-type: none"> • NOTE: The expiration date of 5 days will display and print out label. </td> </tr> <tr> <td>4</td> <td>Line out the following statement on the product label, "See tie tag for antibody titer levels". <ul style="list-style-type: none"> • Affix label to the unit. </td> </tr> <tr> <td>5</td> <td>Allocate product to the patient according to affiliate specific SOP.</td> </tr> <tr> <td>6</td> <td>Notify the floor when the product is ready for pick up.</td> </tr> <tr> <td>7</td> <td>Provide a copy of the nursing job aid titled "Investigational COVID-19 Convalescent Plasma" with each unit issued to the floor, if nursing requests administration support.</td> </tr> </tbody> </table>	Step	Action	1	Ensure you have a EPIC Convalescent order for the patient, along with completed COVID-19 Convalescent Plasma Order form and evidence of signed MAYO consent form.	2	Thaw plasma according to affiliate specific SOP.	3	Perform component preparation using the processing codes listed in the "Component Prep Code and Labeling Table" section below. <ul style="list-style-type: none"> • NOTE: The expiration date of 5 days will display and print out label. 	4	Line out the following statement on the product label, "See tie tag for antibody titer levels". <ul style="list-style-type: none"> • Affix label to the unit. 	5	Allocate product to the patient according to affiliate specific SOP.	6	Notify the floor when the product is ready for pick up.	7	Provide a copy of the nursing job aid titled "Investigational COVID-19 Convalescent Plasma" with each unit issued to the floor, if nursing requests administration support.
Step	Action																
1	Ensure you have a EPIC Convalescent order for the patient, along with completed COVID-19 Convalescent Plasma Order form and evidence of signed MAYO consent form.																
2	Thaw plasma according to affiliate specific SOP.																
3	Perform component preparation using the processing codes listed in the "Component Prep Code and Labeling Table" section below. <ul style="list-style-type: none"> • NOTE: The expiration date of 5 days will display and print out label. 																
4	Line out the following statement on the product label, "See tie tag for antibody titer levels". <ul style="list-style-type: none"> • Affix label to the unit. 																
5	Allocate product to the patient according to affiliate specific SOP.																
6	Notify the floor when the product is ready for pick up.																
7	Provide a copy of the nursing job aid titled "Investigational COVID-19 Convalescent Plasma" with each unit issued to the floor, if nursing requests administration support.																
<p>Finalizing Paperwork</p>	<p>Once unit has been issued to the patient, place the paperwork in the Transfusion Service Specialist/Supervisor mailbox for scanning into EPIC. The Transfusion Service Specialist or their designee will scan the COVID-19 Convalescent Plasma Order Form into EPIC as follows:</p> <ul style="list-style-type: none"> • Sign into EPIC and select media manager tab, click on order option • Select the plasma order associated with the convalescent plasma • Scan the document • Review the scan to verify it scanned appropriately • Select "Lab Test Result" from the Document Type drop down • Free text "CCP Order" in the Document Description <p>Verify that MAYO consent form has been scanned into Media Manager</p> <ul style="list-style-type: none"> • Search media manager for MAYO Clinic Consent form <ul style="list-style-type: none"> ◦ If found, open to verify that the document has been completed and signed. ◦ If not found, select encounter, scan MAYO Consent form into EPIC, select Consent Form documentation as document type and enter MAYO Clinic Consent form as the title. 																

Email Stacy Ralston and notify her that the information is in EPIC for her review.
 Save electronic or paper copy and store according to regulatory requirements.

Transfusion Reaction In the event the patient experiences any signs and/or symptoms of a transfusion reaction follow dept. specific SOPs for managing, reviewing and reporting them

Component Prep Code and Labeling Table

Input E Code	Component Prep Function Code	SQ Code	5 Day Output Code
