STATEMENT OF PERSON COLLECTING BLOOD TEST

I have withdrawn a blood sample from the above-named person being tested at the request of the peace officer named above and transferred custody of the sample to him/her. In drawing the blood, I used standard venipuncture technique as approved by standard medical practice. I did not, however, use alcohol to cleanse the skin at the venipuncture site. Instead, I utilized benzalkonium chloride, a non-alcohol germicide to cleanse the skin around the location from which I draw the blood.
