**Date:** 8/3/2012  
**Re:** Notifying DynaLIFE<sub>DX</sub> of Shipments on Saturdays

---

## Changes to Notifying DynaLIFE<sub>DX</sub> on Saturdays

Due to a recent incident in which a box was not received by DynaLIFE<sub>DX</sub> in a timely manner on a weekend we have needed to make changes to how we notify DynaLIFE<sub>DX</sub> of shipments on Saturdays.

In addition to faxing the Shipment Notification form we must call DynaLIFE<sub>DX</sub> Specimen Receiving to inform them of the incoming delivery. Call DynaLIFE<sub>DX</sub> at **1-800-661-9876** and dial **extension 8120**. As we have already faxed the notification we just need to inform them that the fax has been sent with the appropriate shipping information.

Thank you very much for your assistance in this matter,

Jennifer G. Daley Bernier, R.T. (CSMLS)  
Laboratory Supervisor
