

Weekly Updates

March 19, 2015

| Test | Description of Changes | Affected Individuals |
|-----------------------------------|---|----------------------|
| T Spot TB Test | HCMC LIS is working on this test. The required containers for this test are: Two (2) Lithium Heparin (dk green) no gel tubes. Please draw this despite the label only indicating one tube. | All Staff |
| ✓ for existing Appts | Please check for existing appointments for the patient. If the patient has an existing appt, use this rather than creating a new appt. | All Staff |
| QC Net | <p>Bench techs – you will need to update your compatibility settings for the QCNet website now that we have updated to Internet Explorer 11.</p> <ol style="list-style-type: none"> 1. Go to the menu bar and select TOOLS. 2. Select Compatibility View Settings 3. Type in the 'Add this website' box to add the listed websites.  | Bench Techs |
| Clinical Laboratory Collaborative | We encourage you to look into attending the event. See link for details. | All Staff |
| Kim West | Kim will be out beginning on March 25 th for several weeks. | All Staff |

**Team
Building**

FYI: We are planning a one or two session team building exercise during the lab meeting in the upcoming months.
