

Weekly Updates

May 22, 2015

Test	Description of Changes	Affected Individuals
iFOB	When patients drop off specimens for iFOB, please encourage the patient to wait while we check to the container for a label.	All Staff
Unusual test requests	If a provider has unusual requests for testing or patient prep please notify Denelle or Sherry. We will discuss it with the provider and help figure out the best way to proceed	All Staff
QC Net	Just an FYI: we have adjusted some of the rules in QCNet. Continue to look for 'RED' rule rejections and troubleshoot them as normal.	Bench Techs
Heme Scope	Remember to clean oil off the objectives once you have finished with the scope.	Bench Techs
Green Tubes	Please remember to fill green tubes all the way full.	All Staff
Freezer	The -30°C freezer has been ordered and we should see it in about 2 weeks. It will go below the counter in sendouts.	All Staff
AccuVein	Please keep the AccuVein during the workday in Sendouts. Then each night, put it back on the charging base locked in the office for security purposes. The charging base is by the phone on Sherry and Denelle's desk.	All Staff

Procedure Additions, Updates and Changes:
