

Weekly Updates

June 19th, 2015

Test	Description of Changes	Affected Individuals
Radio	Please turn off the radio in draw room 2 at the end of each night. If we don't turn it off, it will be unplugged every night...	Phlebs and/or closer
CO2	Please tape the CO2 flex and return to the inventory at the end of each night. Do not confirm the removal, just tape and then return to the instrument.	Closer
Discontinued Tests	We have discontinued IBCT, TPSA & LIPL – we are working to update any paperwork that may still reference these tests.	All Staff & Bench Techs
Correlation	We are doing some more correlation testing for FT4, TSH & FERR. <ul style="list-style-type: none">• Sendouts should deliver any tubes with these tests on the samples to the Chem bench for testing• Chem bench will perform testing and then return the samples to Sendouts to be sent to HCMC• Chem bench techs record values on logs and periodically look up HCMC values and record on sheets	All Staff
Meeting with Dr. Erickson	<ul style="list-style-type: none">• We presented him QA data from 2014 and 2015 year to date.• He took note of the providers who are biggest offenders and plans have a conversation with these individuals	All Staff
Draw Room #2	We are investigating the idea of having a TV with a DVD player as a distraction tool for children. We will let you know how this progresses.	All Staff
July Lab Meeting	At the July meeting we will be discussing solutions to getting urines through the lab faster.	All Staff

Time off
