

Weekly Updates

December 11, 2015

Test	Description of Changes	Affected Individuals
Wage Increase	See the attached document about increases for Hennepin County employees starting on the first paycheck of 2016. This summary document will talk about the union, but non-union workers in Hennepin County also follow the union. Summary	All Staff
Sperm in Urine	We have requested that sperm found in urine of females 12 and under will become a critical value where a provider must be notified. – <i>this is live as of Wednesday 12/9/2015</i>	Bench Techs
Unique Patient	There is a 8 month old – see MRN: 4085766 with no platelets as of 12/10/15. Patient will be see weekly for platelet levels. Labs must be collected via venipuncture. Put pressure on venipuncture site for several minutes because of the lack of platelets and use coban. See Denelle if you have questions.	All Staff
