

Weekly Updates

February 26, 2016

Test	Description of Changes	Affected Individuals
Revised procedures	Please see the links below of revised procedures. Follow the link and read the appropriate revised procedures.	All Staff
EPIC Changes	On March 8 there is an EPIC upgrade. Please review the following power point for relevant changes. The changes are mostly aesthetic rather than functional. EPIC Changes Power Point	
Update on Paps	We are working on a fix, but this may not be in place until after March 13 th . [EPIC changes are frozen for the upgrade] Until then, we will be reordering these autoreleased orders. Providers have been asked to check that the test has a <i>FUTURE</i> status, but mistakes may still happen.	All Staff
Flu Season	We are currently experiencing widespread infection . Please wear a mask if you encounter the following: <ul style="list-style-type: none">• Masked patients• Patients who are coughing, sneezing, blowing noses etc In order to protect yourself.	All Staff
Tosoh Log	There is a log on the Tosoh Clipboard to track patients that have invalid results.	All Staff

Phrazer

Starting on Monday 2/29, we will begin using the Phrazer device. We will have some training/orientation to the device on Monday and Tuesday of next week as follows:
