> This job aid will instruct you on how to navigate to the Beaker Learning Home Dashboard.
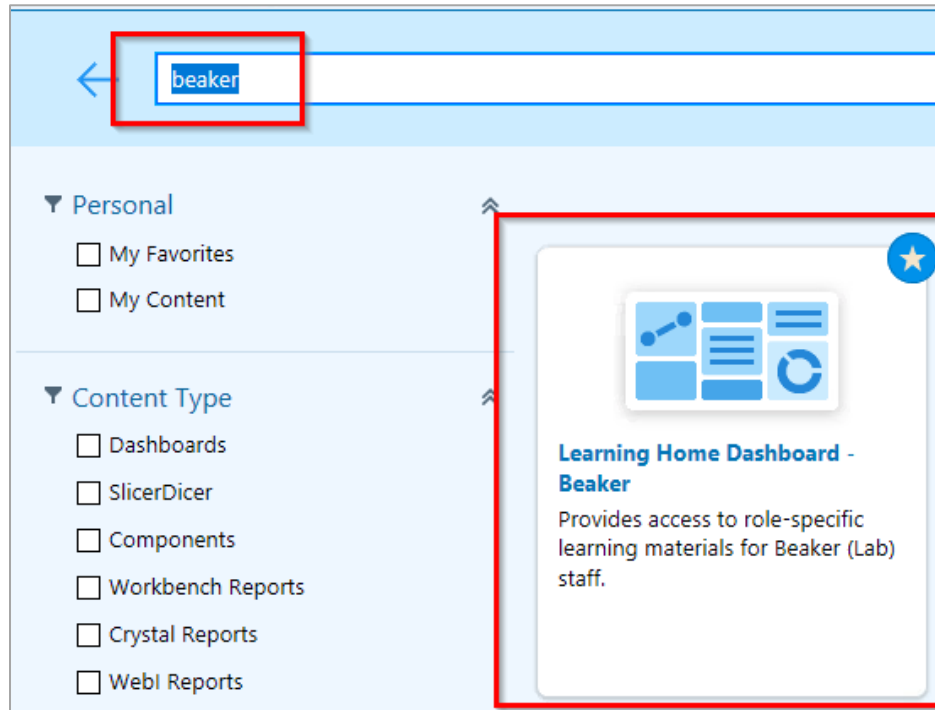

## Navigating to the Beaker Learning Home Dashboard

1. Navigate to the **My Dashboards** activity. This activity is located alongside the other user activity tabs in the top left hand side of the screen.

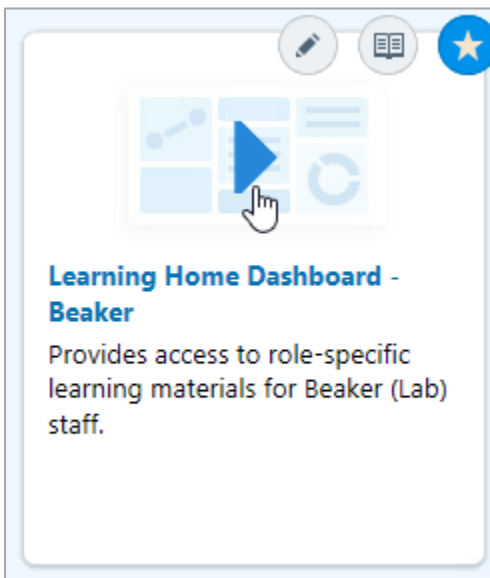

2. When you open the Dashboard activity, you may not be brought to the Learning Home Dashboard (LHD) right away. Instead, you may need to search for it. To do so, **click the title of the current dashboard** (in this case, Lab Manager). This will open the search activity for all reporting content.
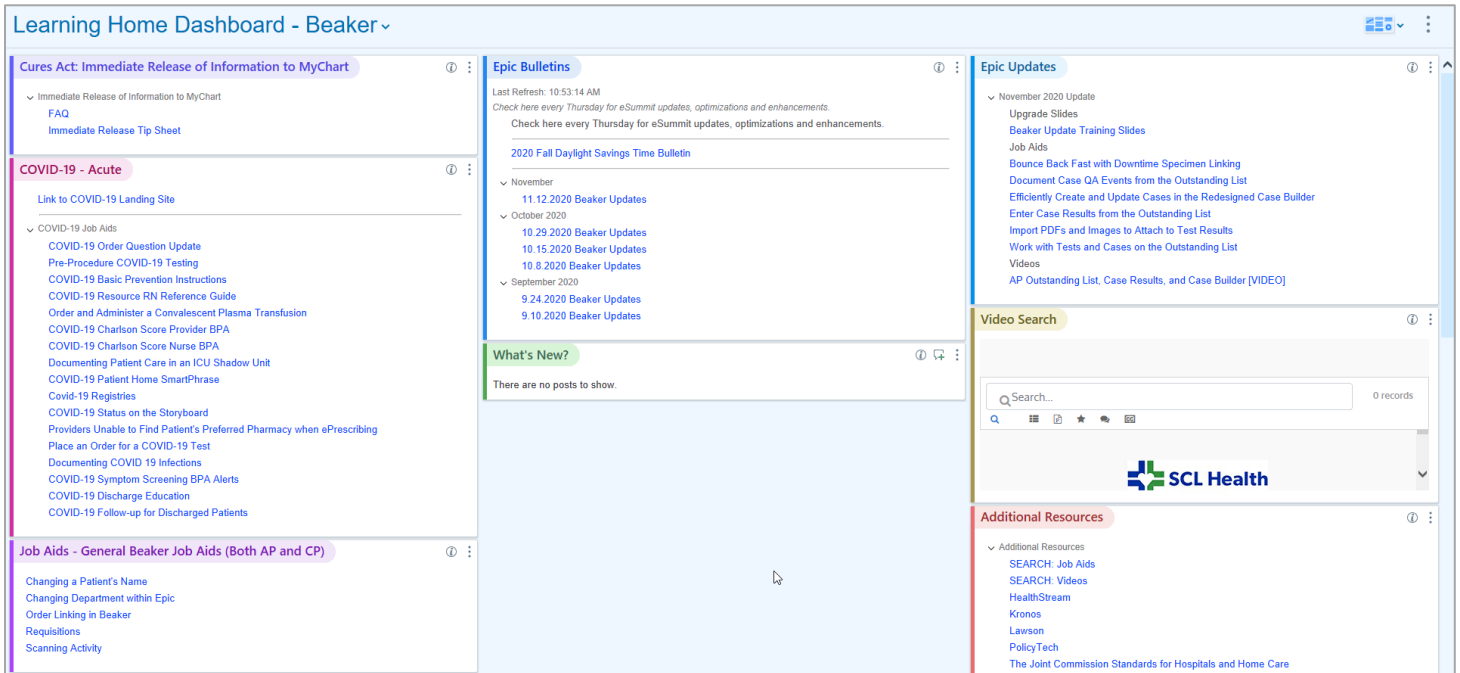

3.  In the search bar, type "Beaker" and hit the Enter key. This will bring up all reporting content containing the word "Beaker." The Beaker LHD should be the first result listed.

4.  Hover your mouse over the dashboard. You'll notice a play button has appeared. Click this to run the Dashboard.

5. You are now on the Beaker Learning Home Dashboard. Click any of the hyperlinks listed to explore learning content, updates, bulletins, and additional resources such as PolicyTech.
