

How to obtain Ortho Diagnostics Package Inserts when receiving Ortho Reagent Inventory

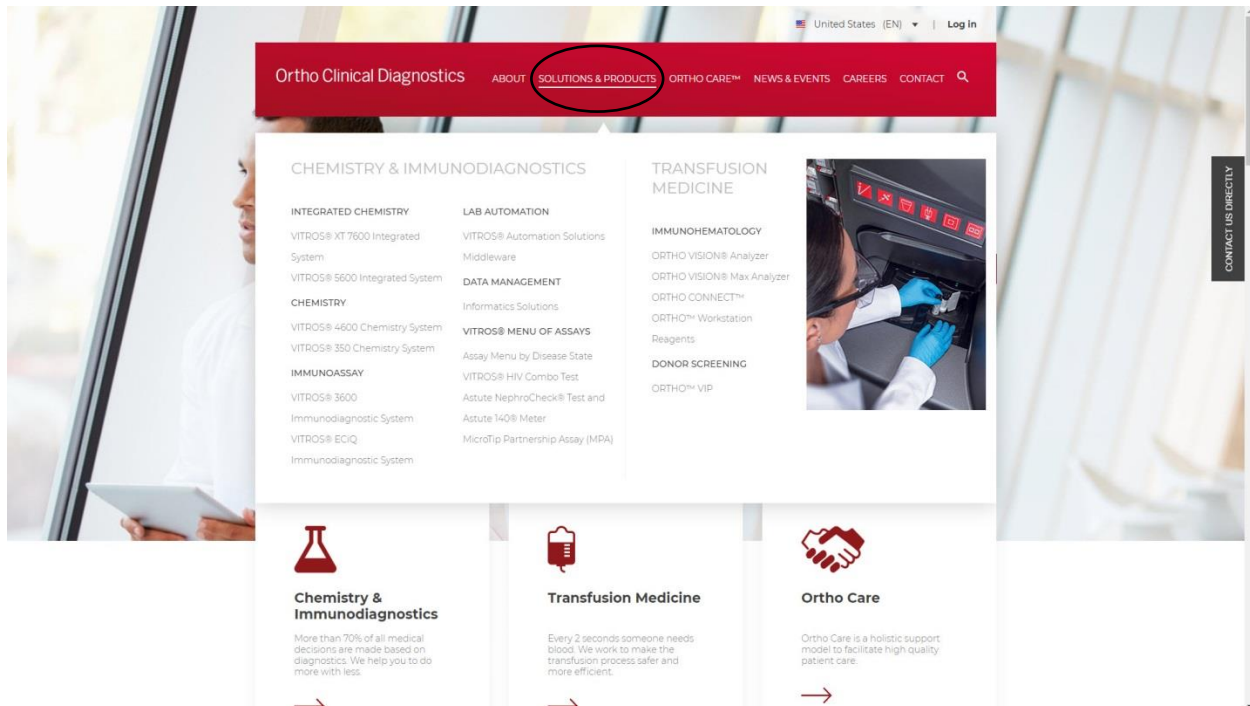

This is **NOT** the package insert!

- To get the package insert go to the Ortho Clinical Diagnostics site.

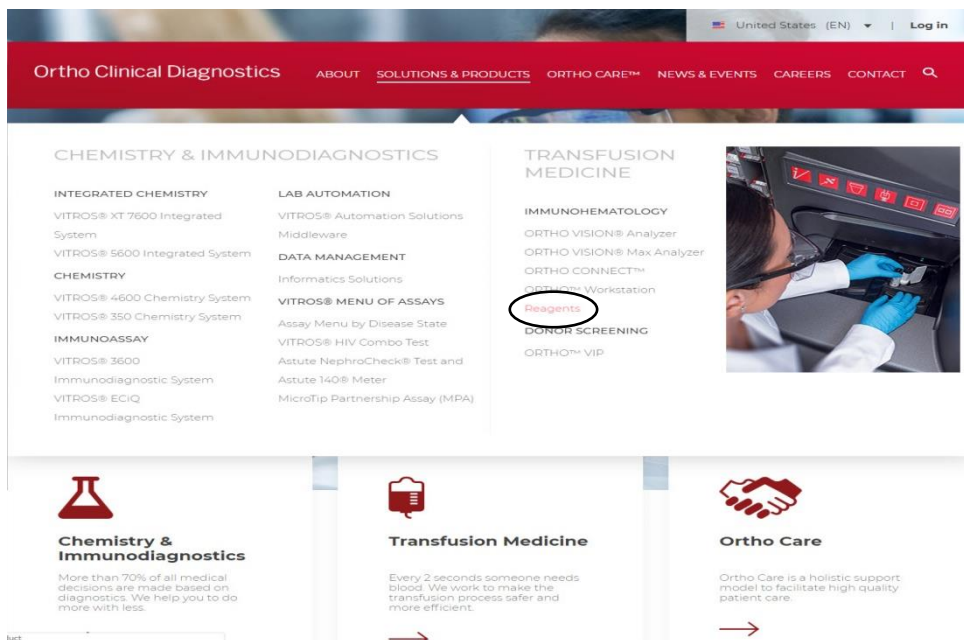

<https://www.orthoclinicaldiagnostics.com/>

- Then hover over the Solutions & Products tab

- Under the Transfusion Medicine, Immunochemistry area, select Reagents

- It will take you to the reagents page, select Resources

The screenshot shows the Ortho Clinical Diagnostics website. At the top, there is a navigation bar with the company name and links for ABOUT, SOLUTIONS & PRODUCTS, ORTHO CARE™, NEWS & EVENTS, CAREERS, and CONTACT. Below this is a section titled "Reagents". On the left, there is an image of various reagent bottles. To the right of the image, there is a text block: "Help to safely, accurately, and efficiently screen patients—and deliver fast, accurate, standardized results, with proven and reliable reagents that integrate with the entire line of ORTHO products." Further right, there is a "Sales Support" section with contact information: Phone: 800-828-6316, Fax: 585-453-3660, and an "EMAIL >" button. Below the reagents section, there is a horizontal menu with "Resources" circled in red and "Related Products and Services". Under "Resources", there is a section titled "Reagent Types" with a sub-section "ID-Micro Typing System™ (ID-MTS™)". This section includes an image of a reagent bottle and a text block: "The ID-MTS™ Gel Test is a safe, cost-effective solution for blood bank laboratories of all sizes and can be easily automated. Since ID-MTS™ technology requires fewer process steps, it is easier to perform and more cost-effective than traditional methods." Below this, there is another section titled "Reagent Red Blood Cells" with an image of a reagent bottle and the text: "Be confident that the reagent red blood cells you use every day—". At the bottom of the page, there is a long URL.

- Under the resources page select Technical Documents

The screenshot shows the "Resources" page on the Ortho Clinical Diagnostics website. At the top, there is a horizontal menu with "Resources" circled in red and "Related Products and Services". Below this, there is a section titled "Resources". The text reads: "For IFUs, MSDSs, and other technical documentation, see [Technical Documents](#)". Below this, there is a section titled "Related Products and Services". Under this section, there are two items: "ORTHO VISION® Analyzer" and "ORTHO ON DEMAND". The "ORTHO VISION® Analyzer" item has a text block: "A blood banker's job is critical, yet labs face growing pressure to find new efficiencies and do more with less." and a "Learn more >" link. The "ORTHO ON DEMAND" item has a text block: "Gain access to the latest educational content from the leading professionals in transfusion medicine in a 24/7/365 virtual trade show and online learning environment" and a "Learn more >" link. At the bottom of the page, there is a section titled "Also of Interest:" with two links: "FDA Licenses ORTHO™ Sera designed for Extended..." and "MicroTip Partnership Assay (MPA) Ortho Clinical Diagnostics Announces Global...".

- In the Technical Documents page go to the Immunohematology area, select Instructions for Use
