

<p>Description of change</p>	<p>In order to make sure that we don't run out of critical supplies, pink cards (Kanban cards) have been placed on certain critical items.</p> <p>For some items, the card has been placed on the outside of the container:</p>  <p>For other items, the card has been placed inside the container, usually on the last item in that container.</p> 
<p>What you should do</p>	<p>If you open the box/package/container to use the item, then place the card in the Supervisor Tray. If this happens on a weekend or holiday and you are concerned that we might run out of the item before the next business day, please page the Supervisor on-call.</p>
