Original Effective: 04/27/09  
Revised: 04/24/2018  
Revision Effective: 05/07/2018

**Deviation From SOP**

Page 1 of 1

Date: 08/03/2020 *to begin 8/7/2020* Affected SOPs: BBCP-JA014, BBCP-019

Samples Involved: N/A

Description:

Add a location for Emergency Cell storage

Location: University OR

LPC Type: O-

LPC Quantity: 4

LPC Special Instructions: >14 days until expiration when tray prepared

At the top of the Emergency Transfusion Form, document "UH OR"

The refrigerator for these units is located behind the "red line" for the OR. Therefore, when units need to be replaced, call the OR and ask to speak to the charge RN. Confirm pneumatic tube station and availability of the charge RN to place the new units in the refrigerator and send back any unused units.

Possible Effects:

Availability of emergency uncrossmatched RBC for patients who emergently need blood during surgery.
