

**Deviation From SOP**

**Date:** 6/10/21 **Affected SOPs:** MTP and Platelet Inventory

**Samples Involved:** Trauma and Patients with Platelet orders for multiple units

**Description:**

Due to low inventory currently, AHC BB is implementing:

- 1) Revision to MTP process for 3 RBC, 3 Plasma and 1 platelet every other
- 2) Triage any platelet order for more than 1 platelet.

**Possible Effects:**

Trauma needs to notified of lower product volumes in the MTP cooler and BB Medical Team will be busier calling clinicians for multiple orders.
