**** EXTERNAL Message From scheduling@celltherapy360.com. DO NOT open attachments or click links from unknown senders or unexpected emails. ****

Hello,

This communication is being sent to you because you are a designated BMS drug product delivery contact for your site.

Beginning the week of **January 17, 2022**, you will notice some small changes in appearance only to the LN₂ shippers in which BMS Cell Therapy products are shipped. By the end of January 2022, the change will be fully effective and all products delivered to your site will be packaged in the new shipper. **Please note that shipper validity period, data monitoring process and web link functionality, and label placement/content will remain unchanged.**

The most notable exterior difference is clear – the shipper is now grey instead of the previous beige color.

The most notable interior difference is the new hinged lid on the inner container. The Conditioning Monitoring Device is now hidden within the hinged lid.

You can expect to begin seeing the new LN₂ Shippers towards the end of next week. If anyone on your team not directly associated to drug product delivery would benefit from this email, please disperse as you see fit.

Please reach out to the Cell Therapy 360 Scheduling and Cell Logistics Team with any questions.

Best Regards,

Scheduling and Cell Logistics
