

# Lab IS Update

Date: 05/11/2023

Topic: FAQ - Cerner Upgrade to Code Level 2018.14 on 05/20/2022

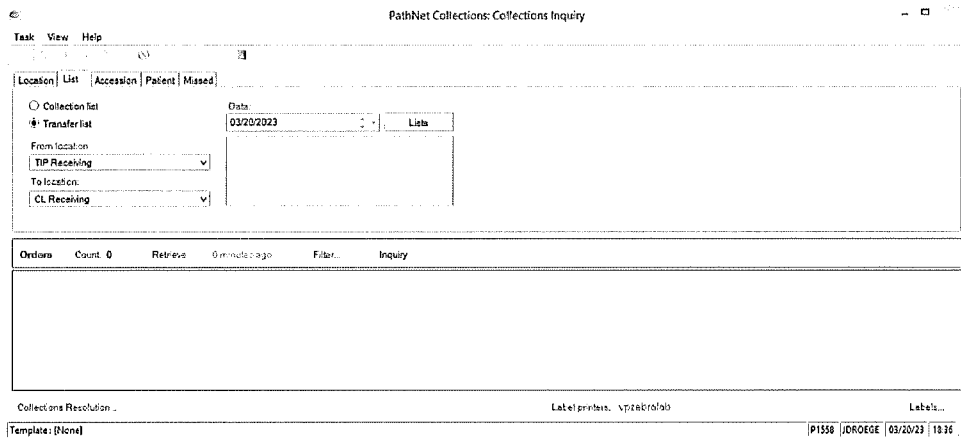

Audience: All Cerner Users

Overview: This document summarizes changes to be expected with the Cerner Upgrade.

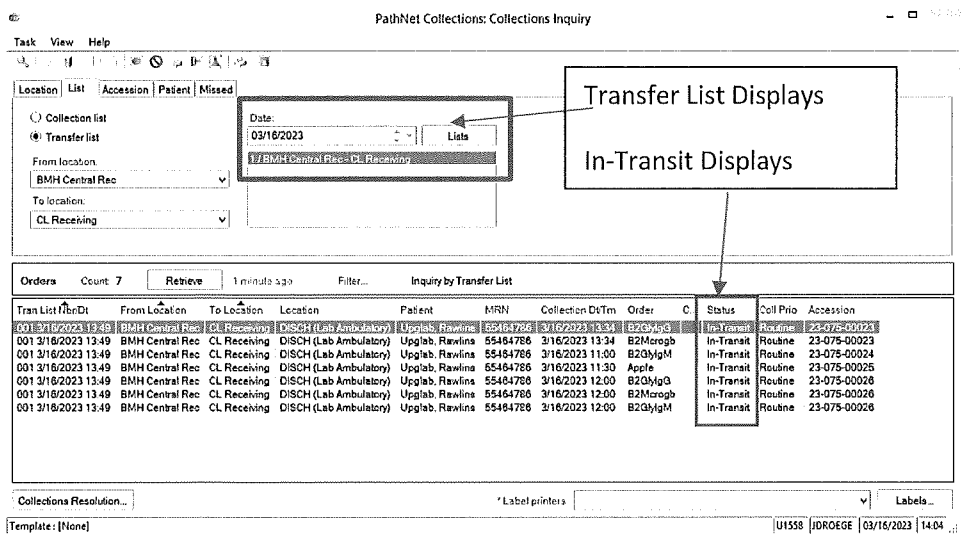

## Affected Audience – Lab Staff who use Collections Inquiry

- Transfer lists that have been built and transferred in the function Transfer List now display properly on the List Tab of PathNet Collections: Collections Inquiry and show an order status of In-Transit.

Before

After

## Affected Audience – Lab Staff who use Container Inquiry

- Printing and reprinting labels now generate an event in Container Inquiry for Label Print. This event also includes the detail of the printer that generated the label.
