

**Lab FAQs for documentation of user review**  
**Cerner 2018.19 Code Upgrade that goes into production on 07/14/2024**

<b>Function</b>	<b>Change</b>
Provider Selection	When you select a provider in the Provider Selection dialog box, you can filter for providers with an active relationship to the patient.
Output Destination	Search capabilities are now enabled in Output Destination Dialog boxes.
Point of Care Result Entry	In Point of Care Result Entry the Perform button is no longer available.
Flowsheet	Procedure selection button has replaced ellipses in Flowsheet filtering.
Report Request	Cancel Request option now available in Report Request.
Report Request	Remove Request option in Report Request is renamed to Hide Request.
Report Request	The Submitted Requests tab now displays all ad hoc requests submitted by the current user in the last 24 hours.
Results Review in PowerChart	When focus is on the Forward or Reverse button in Results Review, a blue border is displayed around the button.

I have read and understand the changes to the Cerner system for the 2018.19 upgrade.

# Lab IS Update

Date: 06/24/2024

Topic: FAQ - Cerner Upgrade to Code Level 2018.19 on 07/14/2024

Audience: All Cerner Users in the Laboratory

Overview: This document summarizes changes to be expected with the Cerner Upgrade.

## Provider Selection

- When you select a provider in the Provider Selection dialog box, you can filter for providers with an active relationship to the patient.

Before

Provider Selection dialog box. Search fields: Last name, First name, Suffix. Buttons: Search, New Provider, Preview, Clear. Search By: Internal (selected). Filter options: Limit by group, organization, position, relationship (all unchecked). View physicians only: [X].

Name	Services	Aliases	Positions
<			>

#	Organization	Address	Phone	Alias
---	--------------	---------	-------	-------

OK Cancel

After

Provider Selection dialog box. Search fields: Last name, First name, Suffix. Buttons: Search, New Provider, Preview, Clear. Search By: Internal (selected). Filter options: Limit by group, organization, position, relationship (all unchecked). View physicians only: [X]. View active patient relationships only: [ ] (highlighted).

Name	Services	Aliases	Positions
<			>

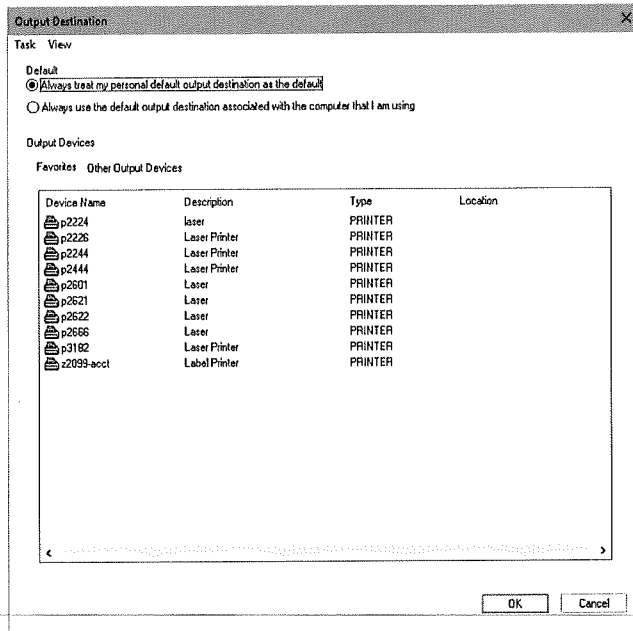

#	Organization	Address	Phone	Alias
---	--------------	---------	-------	-------

OK Cancel

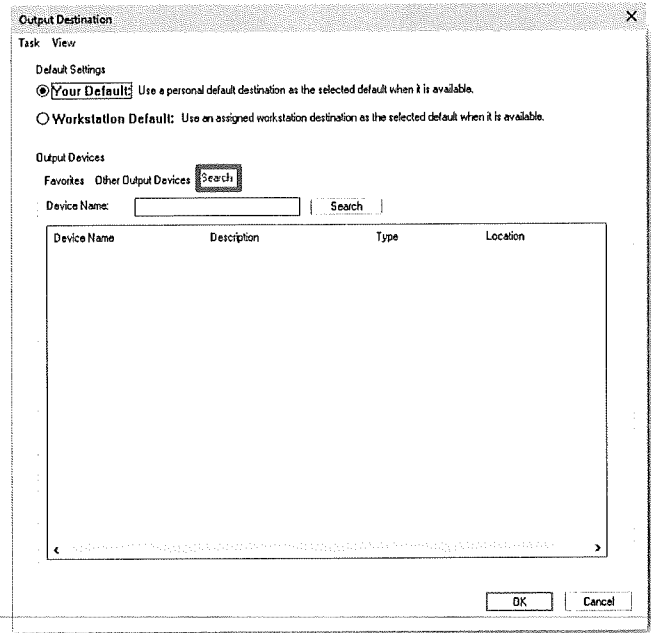

## Output Destination

- Search capabilities are now enabled in Output Destination Dialog boxes.

Before

After

## Point of Care Result Entry

- In POCRE the Perform button is no longer available.

Before

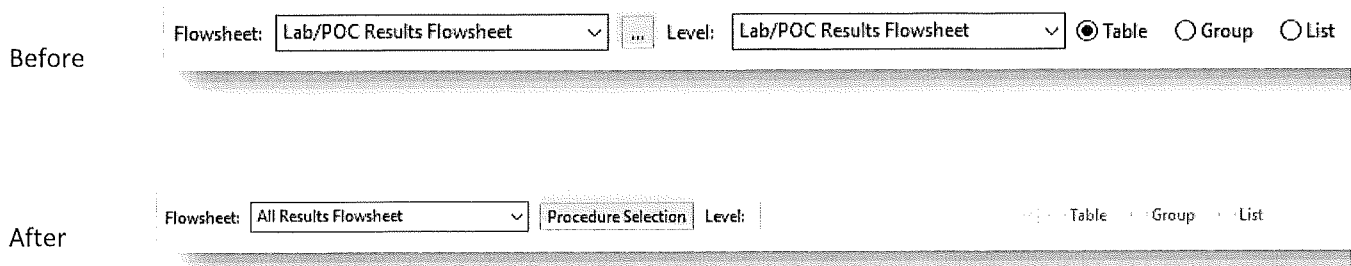

The screenshot shows the 'PathNet General Lab: Point Of Care Result Entry' window. The interface includes a menu bar with 'Task', 'View', and 'Help'. Below the menu bar are fields for 'DOB: Age:', 'Sex:', 'MRN: Location:', and 'FIN NBR:'. The main area is divided into a left sidebar with fields for 'Test title:', 'Orderable:', 'Specimen type:', 'Performed date/time:', 'Performed ID:', and 'Ordering physician:'. The right side features a 'Results' table with columns for 'Procedure', 'Result', and 'Flags'. At the bottom right, there are 'Perform' and 'Verify' buttons. The status bar at the bottom shows 'Ready', 'p1558', 'FRAWLINS', and '13:43'.

After

The screenshot shows the same 'PathNet General Lab: Point Of Care Result Entry' window after an update. The layout is identical to the 'Before' screenshot, but the 'Perform' button at the bottom right is now disabled (grayed out). The 'Verify' button remains visible. The status bar at the bottom shows 'Ready', 'u1558', 'FRAWLINS', and '13:41'.

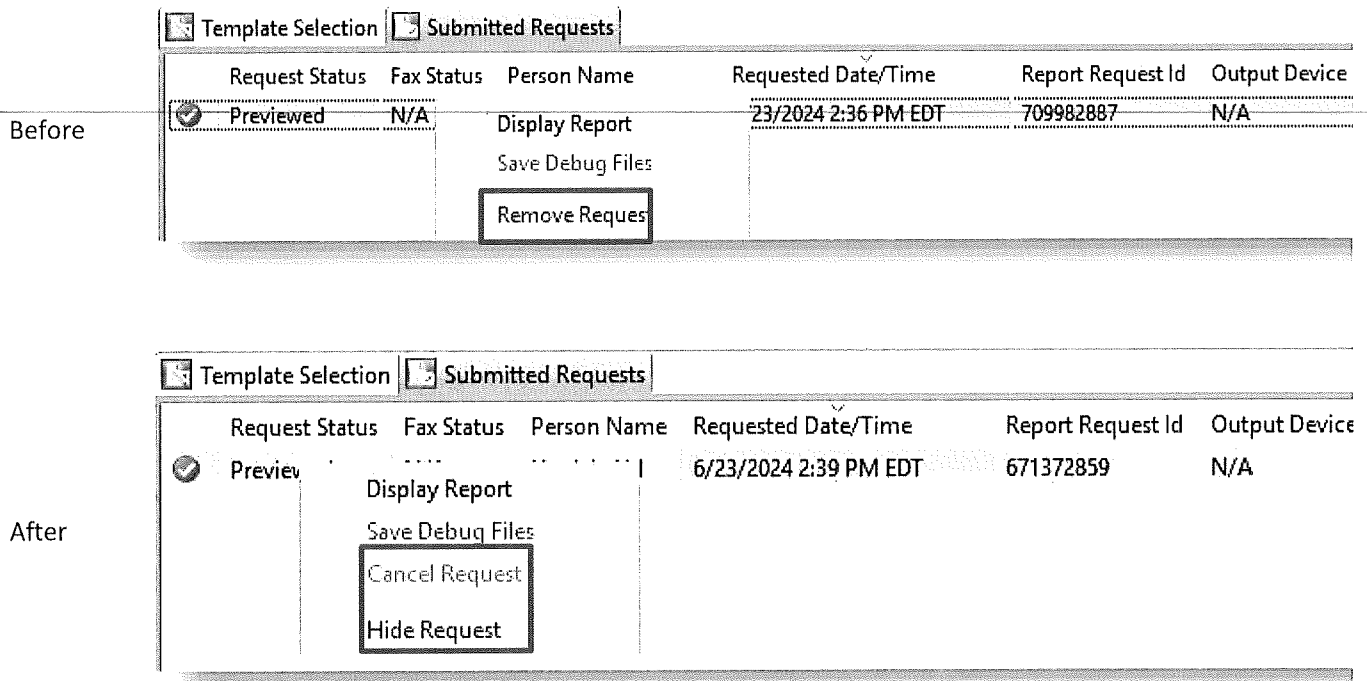

## Flowsheet

- Procedure selection button has replaced ellipses in Flowsheet filtering.

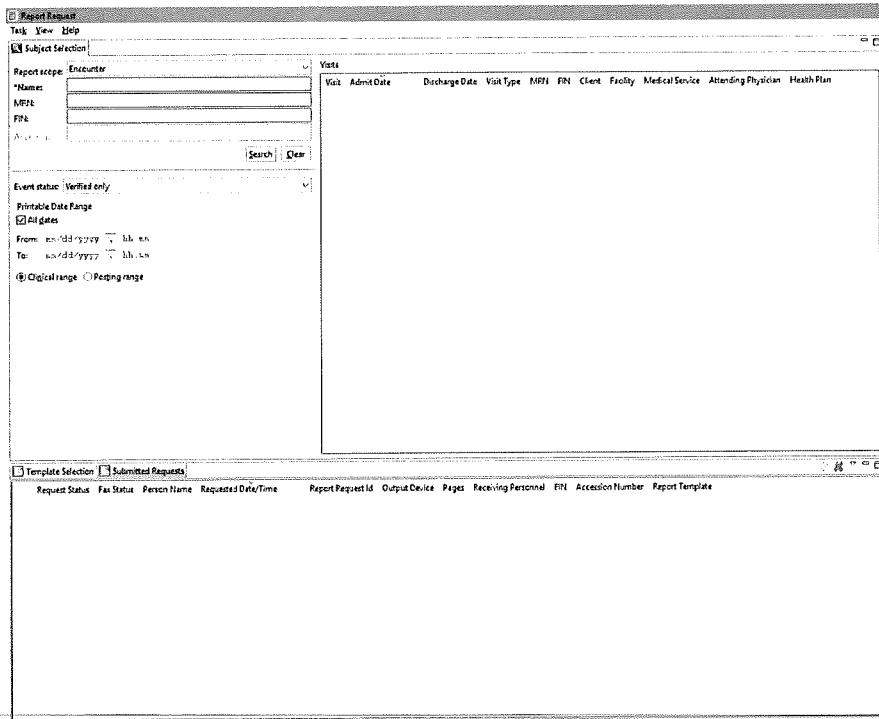

## Report Request

- Cancel Request option now available in Report Request.
- Remove Request option in Report Request is renamed to Hide Request.

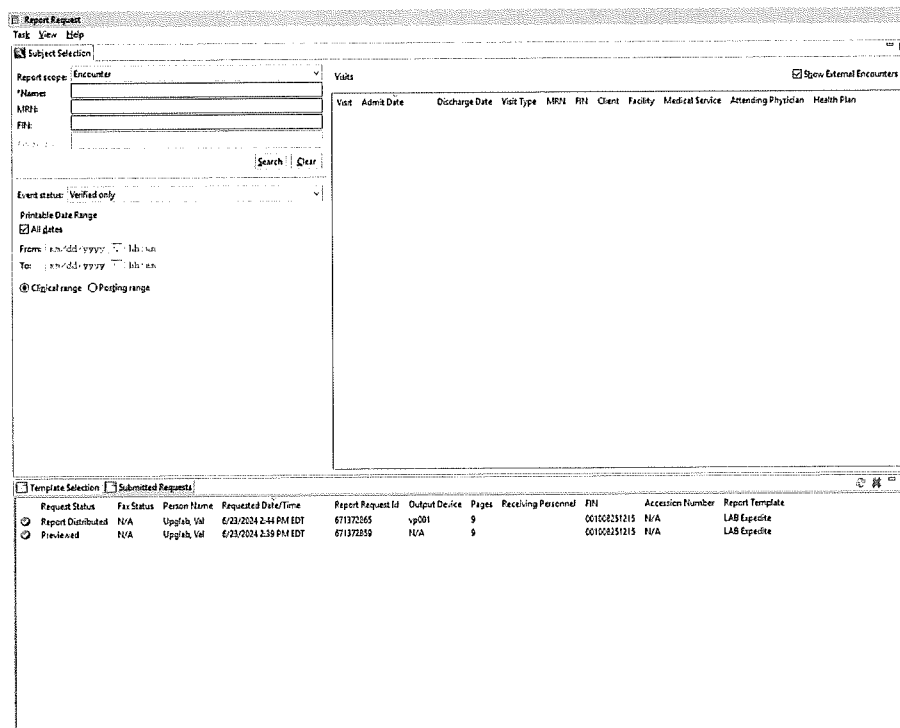

- The Submitted Requests tab now displays all ad hoc requests submitted by the current user in the last 24 hours.

Before

After

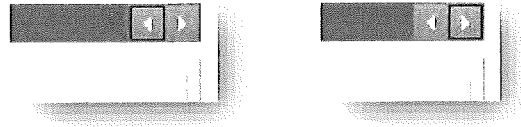

## Results Review in PowerChart

- When focus is on the Forward or Reverse button in Results Review, a blue border is displayed around the button.

Before – no border around the arrow

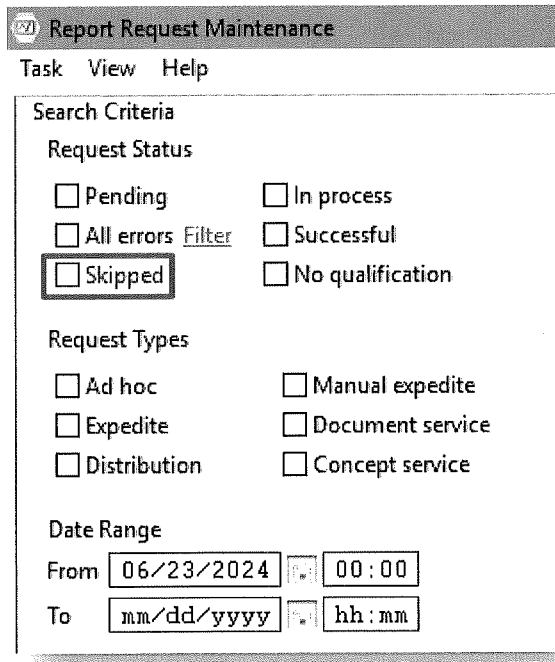

After – blue border surrounds selected arrow

## Report Request Maintenance

- The Skipped request status is renamed to Canceled.

Before

**Report Request Maintenance**
