Indiana University Health

CTL Updates

3

- Refrigerator #4 is in validation – waiting on REES to change probes over
- Hematrax CT computer and new Hematrax CT 3.7.2 is ready to go
 - We met our time goal!
 - The new MFG label that it generates is required by several manufacturers.
- FACSVia is still out of commission.
 - Continue to start it up daily to keep the lines clear.

Indiana University Health

CAR T

- Tubing requirements.
 - standardize 12-inch tail for most?
 - BMS is the only product that would not allow this
- * Autolus
 - New CAR T cell product from the UK
 - IDMs are drawn within 30 days AND the day of collection
 - Not officially open but they are hoping soon. Master Service Plan with legal.
- BMS Breyanzi is open and there is a collection scheduled.

Staffing/Training Updates

5

- Remember that MediaLab assignments are due within 30 days from when they are assigned.
 - 6 month and 12 month competencies for new training cannot be late.

Indiana University Health

Values Acknowledgments: Purpose, Excellence, Compassion, Team

6

Thanks Brody and Emma for the ISBT Hematrax 3.7.2 validation!

Thanks Erik for the work on validating refrigerator #5 – Waiting on REES

Thanks Hillary for getting the research protocols and SOPs pushed through. Autolus was impressed that we had everything ready so quickly.
