

BMS Collection Procedure Summary of Changes

- **Document Name:** Adult MNC Collection Procedure Clinical & Commercial – The Americas
- **Document Number:** DOC-701332
- **Version:** 4.0
- **Effective Date:** December 15th, 2025

BMS has incorporated important updates into the latest revision of the BMS Adult MNC Collection Procedure Clinical & Commercial – The Americas based on feedback received and to provide clarification. Refer to version history located on pages 59-60 for comprehensive list of changes.

The following changes will become effective on **December 15th, 2025**:

- Renamed document to Adult MNC Collection Procedure Clinical and Commercial
- Clarified section 1.5.4 Apheresis Information regarding medications administered directly to the patient
- Clarified instructions throughout on use of Manual Backup Method, Manual Backup MNC Label Set, Schedule Confirmation Form and use of MNC Product Comment Section
- Clarified instructions on use of institutional labels (section 2.1.6) and updated visual (Fig. 4)
- Removed section 2.2.6 note to avoid over processing whole blood by more than 100 mL
- Removed Table 5 – Designated Shippers per Product, and provided instructions for confirming the designated shipping container (section 2.5.3)
- Clarified and expanded instructions in Table 5 – Courier Documentation and added example courier documents (Attachments F-1 and F-2)
